

# JUPITER GROOVE

An eclectic mix of instrumental aggressive progressive music with touches of jazz,fusion,latin,funk,blues,and acid rock.

Guitarist Dan “RodZ” Rodriguez and percussionist Marty Perez formed the band in 2006 with a vision of composing and performing purely instrumental music.Influenced by a “who's who” of virtuoso musicians (Allan Holdsworth,Steve Vai,Jimi Hendrix,Frank Zappa,Cosmosquad,Rush, Mahavishnu Orchestra,) the duo began writing exciting music which left few stones unturned and glorified their “anything goes” attitude. A search for a bassist resulted in a conflict of interests with the new member and soon the duo was on the hunt for a new bassist that shared their talents and,more importantly,their vision.In 2009 bassist and Chapman Stickist Juan R Leon joined the band and completed the picture.
